## Professional Summary

Senior Software Engineer with **8 years of experience** leading the development of enterprise SaaS platforms using **C#, .NET Core, Angular, and Azure**. Experienced in designing **scalable REST APIs, microservice architectures, and event-driven systems** for high-performance applications. Proven track record of improving system performance, implementing secure authentication mechanisms, and delivering production-ready features through CI/CD pipelines in Agile environments. Experienced in planning and executing shipping of the products as well as maintaining engineering standards. My management and entrepreneurial experience has strengthened my sense of ownership, initiative, and accountability in delivering complex engineering solutions. **IELTS C1. Open for Visa sponsorship and relocation. Learning German language.**

---

---

## Technical Skills

**Frontend:** Angular, JavaScript, TypeScript, React

**Backend:** C#, .NET Core, Web API, LINQ, Dapper, Entity Framework

**Database:** SQL Server, Evolve DB, PostgreSQL

**Cloud & DevOps:** Azure DevOps, Azure Portal (AZ-900 certified), CI/CD Pipelines, Kiuwan

**Architecture:** Microservices, REST APIs, Event-Driven Architecture, SSO, MFA, CQRS, Design Patterns

**Tools:** Postman, Swagger, Git, GitHub Copilot, Docker, Azure function, Service bus and Event Hub

## Professional Experience

### Senior Software Consultant – Full Stack (SIMS Nextgen – Enterprise SaaS platform for schools)

*Parentpay India Ltd. | July 2025 – present*

- C#.Net | React | SQL Server | Azure Portal | Kiuwan | Evolve DB
- Involved in sprint planning, ensuring completion of sprint goals and scheduling releases
- Contributed to system architecture and repository setup for the NextGen platform for exams module
- Led development of the Data Extraction (DEX) pipeline migrating legacy product data to the NextGen platform to be used for all schools
- Setup the path for writeback activity, from new product to the legacy product
- Improved the performance of key features by 20% on production with query optimization and backend refactoring
- Contributed to the DB schema design and design API structure
- Delivered the first production-ready feature in the Exams module, handling full stack implementation independently

### Senior Software Developer – SpecLink Cloud (Enterprise SaaS Platform)

*Winjit Technologies (RIB Software) | Apr 2022 – July 2025*

- Stack: Angular, .NET Core, SQL Server, Azure DevOps, Serilog, SignalR
- Led SDLC activities for SpecLink Cloud using Agile methodology.
- Improved **Link Engine performance by 30%** by introducing a dedicated microservice and multithreaded processing
- Implemented security features including **role-based access control, MFA, and SSO**
- Participated in **architecture discussions, code reviews, sprint planning, and CI/CD releases**
- Mentored junior developers and contributed to Agile delivery processes

### **Full Stack Developer – Terrace Finance Corporation (Enterprise SaaS multi lender Platform)**

*MASDAG Technologies | May 2021 – Apr 2022*

- Developed web apps for Terrace Finance 1.0 & 2.0 using Angular + .NET Core
- Contributed to microservice-based architecture and API integrations while collaborating with clients in an Agile delivery environment.
- QA/UAT deployments, user story grooming, SCRUM participation

### **Full Stack Developer**

*GCDIS | Mar 2018 – Apr 2021*

- Built internal media platform from scratch using Angular + .NET Core
  - Worked on side project **Sattvannam** for startup incubation
- 
- 

### **Founder / Entrepreneur**

*Creativo Interiors & Shriman Foods | Feb 2016 – Mar 2018*

- Managed interior projects, procurement, and delivery
- Launched private-label spice brand; handled sales and exports

### **Assistant Manager – Marketing**

*Sahara India | May 2013 – Feb 2016*

### **Executive – Business Development (Electrical Engineer)**

*Siemens Ltd | Jul 2008 – Jul 2010*

---

---

## **Education**

- Master of Management Studies (MMS), Welingkar Institute – Mumbai University, 2013 – 69.3%
  - Bachelor of Engineering (Electrical), PVG's COET – Pune University (rank holder), 2008 – 71.33%
- 
- 

## **Achievements**

- Designed and implemented a microservice architecture that significantly improved system performance.
  - Single handedly worked on data sync between legacy and Nextgen products
- 
- 

## **Technical Writing**
